1 Overview

User Management (see page 4)	ASPnetDating gives you complete control over your users. With this set of features You can easily manage users' accounts, photos, messages, videos, answers. If You need to send an announcement to all the site members the easiest way is using this section. It allows You to keep them up to date with the latest updates and features. Spam check helps to better manage and prevent the spam messages and the users that send them. Site members help you keep your site clean! If the site members find that a photo, a profile or a message is inappropriate they can report it as an abuse.
Contests (see page 24)	ASPnetDating software now allows a better way for rating the users' photos. The contests creation provides a flexible way to define the terms and conditions for each one. They can be restricted by gender, age or time duration. Easy to manage and browse all contests' entries.
Group Management (see page 30)	Group Management features allows you to organize the site groups in categories, provides full control over the existing groups. Along with the approve answers, photos and videos, this feature helps you keep your site clean. Before any of the user created groups can be seen on your site, first it must be approved by you.
Site Management (see page 33)	This set of features gives you full control over your site functionality and features. ASPnetDating provides Multilanguage support. Casual dating, adult, etc - configure your site the way you want it. Using our site manager you have the ability to define each and every aspect of your users' profiles. Gone are the days when you had to edit those HTML files in order to add the latest news! Our news manager does everything for you - automatically. Edit e-mail templates to include that special catch that will make your users eager to visit your site again and again. Do YOU prefer the Front End to contain YOUR own LOGO? The system provides you an easy way to change the default one. A flexible way to edit all content pages and views.
Admin Management (see page 71)	Often there is the necessity of more than one person for administrating the different site contents, options and features. In this section YOU can create users and set the corresponding rights for the site administration.
Payment Management (see page 73)	Choose any of the available payment processors. Define your own payment plans in terms of price and duration. Your users will be able to pick one payment plan and subscribe to it. Non-paid users will be able to register and browse/view profiles but will be unable to send messages.
SEO Management (see page 75)	ASPnetDating helps you with the search engine optimization for your dating site. This tool provides the means needed for meta tags to be generated automatically depending on the users' profile.
Affiliate Management (see page 76)	This set of features allows you to manage the affiliates details, payment request, view affiliate payment history and commissions and uploads your banners that will be available for them to use.
Statistics (see page 82)	ASPnetDating software now provides statistics to monitor users' activity. Just select the time period to view the new registrations and the number of online users online at any given time.
Extras (see page 87)	Our software now supports Vista Sideshow Gadget. It shows the pending photos and answers waiting for approval and number of new users.

2 Login and Home page

Use "admin" as login and "admin" as password. Click on "Settings (see page 54)" in the Site Management section and change your password.

Home page shows a diagram for the new registration for the past 30 days:

Welcome admin | Logout

At a glance: 2 new members for the last twenty-four hours; 73 photos pending; 917 answers pending

Welcome!

3 User Management

ASPnetDating gives you complete control over your users. With this set of features You can easily manage users' accounts, photos, messages, videos, answers. If You need to send an announcement to all the site members the easiest way is using this section. It allows You to keep them up to date with the latest updates and features. Spam check helps to better manage and prevent the spam messages and the users that send them. Site members help you keep your site clean! If the site members find that a photo, a profile or a message is inappropriate they can report it as an abuse.

3.1 Browse Members

ASPnetDating gives you complete control over your users. You can easily edit accounts, photos, delete, suspend, restore, mark as paid/unpaid, delete users.

The screenshot displays the 'User Management' page with the following sections:

- A:** Top navigation bar with the ASPnetDATING logo, 'At a glance' stats, and 'Welcome admin | Logout'.
- B:** User list table header with columns: Username, Name, Gender, Signup Date, Signup IP, Email, and Edit.
- C:** Left sidebar with 'User Management' (selected), 'Site Management', 'Admin Management', and 'Payment Management' menus.

The 'User Management' section contains a 'Filter' form with fields for Username, Name, Gender, E-mail, Signup IP, Has Photo, Activated, Deleted, and Paid Member, along with a 'Search' button. Below the filter is a table showing one user entry:

Username	Name	Gender	Signup Date	Signup IP	Email	Edit
admin	Administrator	Male	12/28/2006	0.0.0.0	admin@aspnetdating.com	Manage

At the bottom of the page are links for [First], [Prev], [Next], and [Last].

The "Browse Members" page is divided in three sections:

Filter

A

This panel provides various criteria for searching and finding the definite user.

The screenshot shows a 'Filter' search interface with the following fields and their corresponding numbers:

- 1. Username : Johnny
- 2. Name : John
- 3. Gender : Male
- 4. E-mail : mail@domain.com
- 5. Signup IP : 255.255.255.255
- 6. Has Photo : Yes
- 7. Activated : No
- 8. Deleted : No
- 9. Paid Member : Yes

At the bottom right is a blue 'Search' button.

1. In this field the username should be filed if search by username is required.
2. In this field the name of the user should be filed if search by name is required. Filling his/her name when registering is optional for the user.
3. This drop-down menu provides a filter by gender: a male or a female.
4. The user can be found by email provided when registered. This filter helps when searching for more than one account per user.
5. The filter is more flexible with the option for searching by IP address. By itself or combined with other criteria search for blocked or duplicated users can be performed.
6. This one provides search by photo available for the account.
7. This options helps searching for activated or not activated accounts.
8. "Deleted" drop-down menu provides opportunity for searching for already deleted users in the database. This helps for viewing all data related with the user including payment history.
9. This filter shows if the user is a paid member or not.

Users per page

B

From the drop-down menu the number of shown users per page can be selected.

Found users table

C

The table contains the following information fields for the accounts: username, name, gender, signup date, signup IP, email and edit.

The table has the following columns and their corresponding numbers:

- 1. Username
- 2. Name
- 3. Gender
- 4. Signup Date
- 5. Signup IP
- 6. Email
- 7. Edit

The table displays the following user data:

Username	Name	Gender	Signup Date	Signup IP	Email	Edit
admin	Administrator	Male	12/28/2006	0.0.0.0	admin@aspnetdating.com	Manage
Johnny	John Doe	Male	12/29/2006	192.168.0.7	johnny@domain.com	Manage
Cane	Cane Black	Male	12/29/2006	192.168.0.7	cane@domain.com	Manage
Ben	Ben	Male	12/29/2006	192.168.0.7	ben@domain.net	Manage
Jenny	Jenny	Female	12/29/2006	192.168.0.7	Jenny@domain.com	Manage
Amelia	Amelia	Female	12/29/2006	192.168.0.7	Amelia@domain.com	Manage
Mery	Mery	Female	12/29/2006	192.168.0.7	Mery@domain.com	Manage

At the bottom of the table is a blue footer bar with the text: [First] [Prev] Showing 1-7 from 7 total [Next] [Last].

1. Displays the username for the account.
2. The name of the user if entered, if not it remains blank.
3. Shows the user' gender.
4. This is the date when the account was created.
5. The IP address of the user for the account.
6. The email address provided by the user for this account.
7. The Edit field gives YOU three options for operating with the account :
 - **Profile:** use this section to edit profile
 - **Photos:** use this section to edit user's photos
 - **Manage:** here you can manage the settings for a particular user

3.2 Browse Photos

Any photo is automatically resized to fit your design and preserve server space. Photos are automatically watermarked with YOUR logo. You may set the limit of photos per account.

Username	Photo	Description	Primary	Private	Explicit
Mery		Mery	<input checked="" type="checkbox"/>	<input type="checkbox"/>	

From "Browse Photos" Section YOU can preview the pictures for a user by four criteria: username, primary, private or explicit status of the picture. The photos available for browsing are only the ones already approved for the user.

3.3 Browse Messages

This feature allows the site administrator(s) to keep under consideration all users' messages. It provides a flexible way to maintain the site rules and block the unacceptable and spam ones.

3

Browse Messages

Messages Management
Use this section to browse user messages...

Filter

Sender :

Search

Messages per page:

Sender	Recipient	Message	Timestamp	Action
Ben(M)	Mery(F)	Thank You for the Message!	1/5/2007 1:47:53 PM	Delete
Ben(M)	Jenny(F)	When I upgrade my account I will contact you!	1/5/2007 1:47:38 PM	Delete
Ben(M)	Amelia(F)	I am interested in getting to know you better!	1/5/2007 1:47:30 PM	Delete
Mery(F)	Ben(M)	:roll; I enjoyed reading your profile!	1/5/2007 1:47:07 PM	Delete
admin(M)	Jenny(F)	Your photo has been approved!	1/5/2007 1:44:50 PM	Delete
admin(M)	Mery(F)	Your photo has been approved!	1/5/2007 1:44:43 PM	Delete
admin(M)	Johnny(M)	Your photo has been approved!	1/5/2007 1:44:39 PM	Delete
admin(M)	Jenny(F)	Your photo has been approved!	1/5/2007 1:44:36 PM	Delete
admin(M)	Ben(M)	Your photo has been approved!	1/5/2007 1:44:34 PM	Delete
admin(M)	Amelia(F)	Your photo has been approved!	1/5/2007 1:44:31 PM	Delete
Mery(F)	Cane(M)	:D When I upgrade my account I will contact you!	1/5/2007 1:43:50 PM	Delete
admin(M)	Cane(M)	Your photo has been approved!	1/4/2007 8:08:26 PM	Delete
admin(M)	Cane(M)	Your photo has been approved!	1/4/2007 8:08:22 PM	Delete
admin(M)	Mery(F)	Your photo has been approved!	1/4/2007 6:18:59 PM	Delete

[First] [Prev] Showing 1-14 from 14 total [Next] [Last]

The filter for the messages has three search criteria:

- **Sender:** the user who sends the message
- **Recipient:** the user who receives the message
- **Keyword:** a message/s can be search by a keyword – this is a helpful tool to find all the messages contain a specific word or a phrase

All the messages matching the criteria are displayed sorted by timestamp.

3.4 Browse Spam Suspects

The new spam protection feature in AspNetDating detects multiple (configurable) similar messages from the same user and blocks the user from sending more messages. The administrator can review the alert and take the appropriate action (unblock, ban, warn, etc).

The screenshot shows the ASP.net DATING software administration interface. At the top, there is a logo for "ASP.net DATING INTERNET DATING SOFTWARE" and a welcome message "Welcome admin | Logout". Below the header, a banner displays "At a glance: 2 new members for the last twenty-four hours; 73 photos pending; 917 answers pending". The main content area is titled "Spam Suspects Management" and contains a sub-section titled "Spam Suspects Management" with the instruction "Use this section to browse, edit or delete spam suspects of your site...". A dropdown menu "Users per page: 20" is visible. A table lists a single user entry:

Username	Message	Action
morilove550	View messages	Delete User Delete User and Messages Mark as Reviewed Send message

At the bottom of the table, there are navigation links: [First] [Prev] Showing 1-1 from 1 total [Next] [Last].

3.5 Browse Video Uploads

Use this section to browse the user video uploads, see their status (approved, private) and delete it if needed.

Welcome admin | Logout

3.6 Approve Photos

Of course, any uploaded photo stays in "pending" state until it is approved or rejected by the administrator.

Approve Photos
Use this section to approve or reject pending photos...

Username	Photo Name	Photo Description	Photo
Ben	N/A	N/A	
Johnny	N/A	N/A	

3

This section contains all the photos pending for approval. The result table contains the username, photo name (if given such), Photo description (if available) and a photo thumbnail. When the thumbnail is clicked a new "Approve Photo" window opens:

Photo Approval

Username: Jenny
Photo Name:
Photo Description:
 Explicit Photo
Approve **Reject**
Cancel

This section gives you several options to manage the photo:

- **Explicit Photo:** When a photo is set as explicit, it cannot be viewed from logged off users. Also it is shown as censored in the new users' area.

- **Approve:** The photo is approved and added to user's account

3

Message

From: admin
To: Jenny
Time: 1/5/2007 1:44:50 PM

Your photo has been approved!

Conversation Archive

admin: Your photo has been approved!

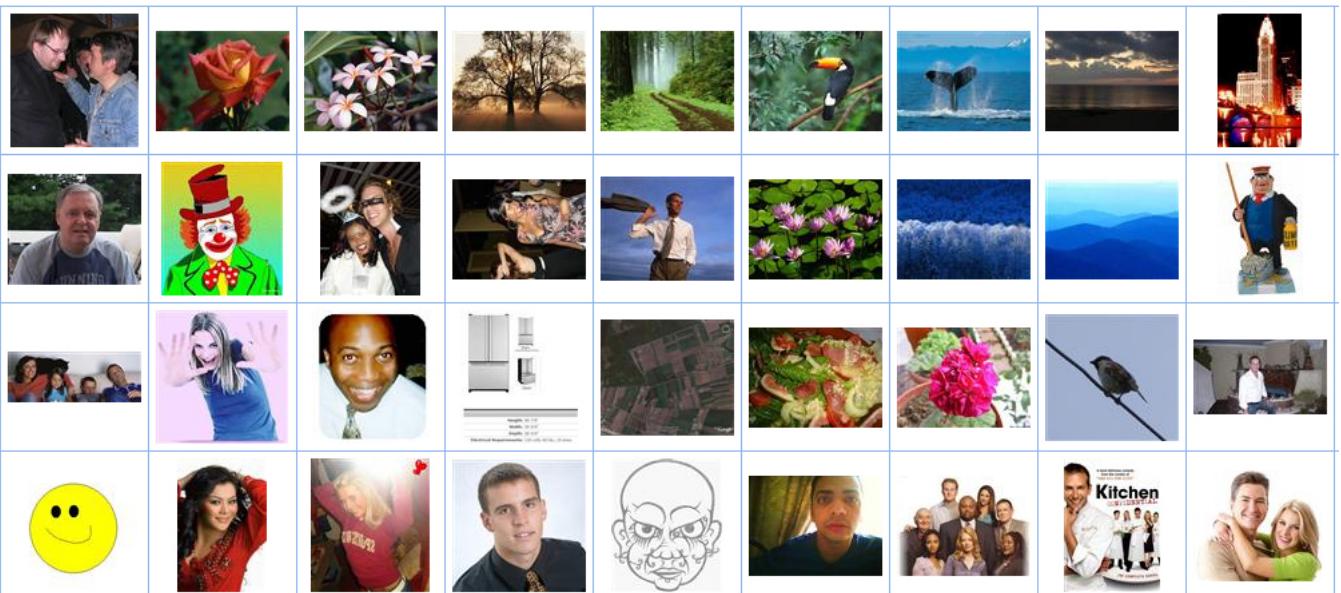

- **Reject:** The photo is rejected. A text area is provided for describing the rejection reason. If no reason is provided, the default one is used (it can be edited from "Edit Templates" section). In both cases the user receives it as a message.

There is an alternative ajax-enabled version of Approve photos that allows to you to approve multiple photos at once:

Approve Photos

Use this section to approve or reject pending photos...

Photo Approval	
Username :	demo
Photo Name :	Sexy
Photo Description :	girl
<input type="checkbox"/> Explicit Photo	
<input type="button" value="Approve"/>	<input type="button" value="Reject"/> Type Reason Here
<input type="checkbox"/> Delete Account	
 ASP.netDATING INTERNET DATING SOFTWARE	

The page shows 50 photos at a time. You can preview their thumbnails and if one is questionable can be viewed in full size by clicking on it. Then just click on "Approve all" button to approve all photos on page.

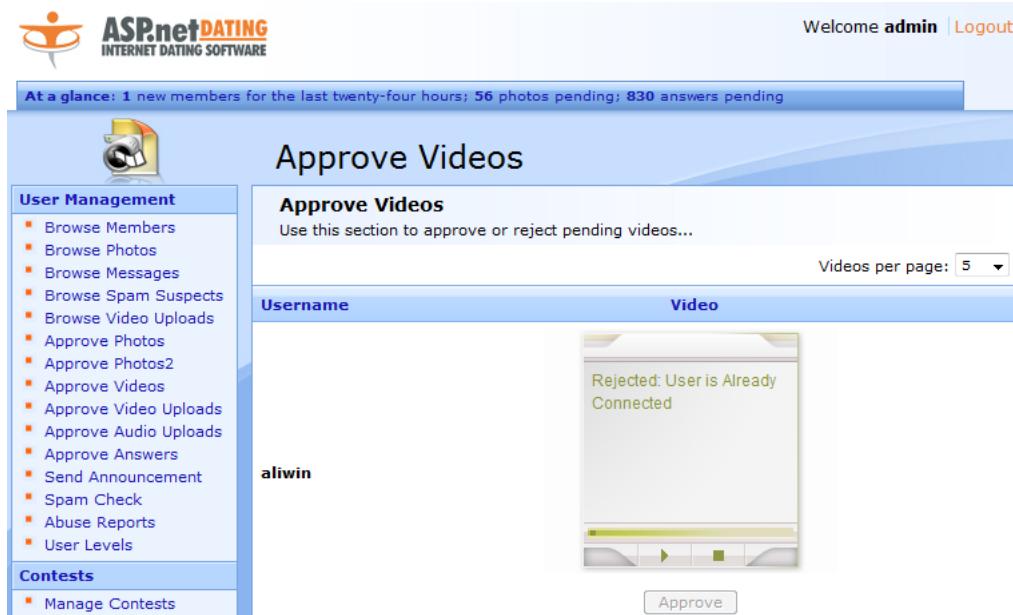

3.7 Approve Salute Photos

In order the users to be verified, they must upload a photo of them holding a paper with the site name and their user name.

This section contains all the salute photos pending for approval.

3.8 Approve Videos

This feature allows you to approve user's personal videos recorded from the front-end.

The screenshot shows the ASP.net DATING software interface. At the top, there is a logo for "ASP.net DATING INTERNET DATING SOFTWARE". To the right, it says "Welcome admin | Logout". Below the header, a banner displays "At a glance: 1 new members for the last twenty-four hours; 56 photos pending; 830 answers pending". The main content area is titled "Approve Videos" and contains the sub-section "Approve Videos". It says "Use this section to approve or reject pending videos..." and includes a dropdown menu "Videos per page: 5". A table lists a single video entry for a user named "aliwin". The video thumbnail shows a message: "Rejected: User is Already Connected". There is an "Approve" button at the bottom of the video row. On the left side, there is a sidebar with "User Management" and "Contests" sections, each containing several links.

3.9 Approve Video Uploads

The video converter plug-in automatically converts from most video formats to Flash Video (FLV). Flash Video (FLV) is a proprietary file format used to deliver video over the Internet using Adobe Flash Player (formerly known as Macromedia Flash Player) version 6, 7, 8, or 9. Flash Video content may also be embedded within SWF files. Notable users of the Flash Video format include YouTube, Google Video, Reuters.com, Yahoo! Video and MySpace. The BBC have recently begun using .flv based media on their news portal.

With the video converter plug-in AspNetDating can utilize the "Video Upload" function. Your users will be able to upload their videos and they will be converted to web-playable format.

Users' videos are not going to be visible to the other members until they are approved by administrator. To browse pending users' videos select "**Approve Video Uploads**" from User Management section.

The username and corresponding videos are displayed. The administrator can use the player to watch the video and depending on if it conforms to the site specifications it can be approved or rejected.

Approve Video Uploads
Use this section to approve or reject pending video uploads...

Video uploads per page :

Username	Video
Cane	 <input type="button" value="Play"/> <input type="button" value="Stop"/> <input type="button" value="Volume"/>

1

3.10 Approve Audio Uploads

Users can upload MP3 files to their profile. You can define if the uploads should be approved and the number of allowed audio uploads based on the user level or billing plan.

In this section You can listen to the uploaded file and approve or reject it.

ASP.net DATING

3.11 Approve Answers

Trying to keep your site clean? Photo approval alone is usually not enough. If you want to remove profane/offensive or otherwise not appropriate profiles you'll need content filtering. Luckily, ASPnetDating provides full control over profile answers. Just pick the questions that need approval (e.g. the "Tell us about you" or "What are you looking for" questions) and any answers will be held "pending" until approved by you. It is also possible to edit before approve - helps stripping a bad word of otherwise clean profile.

Username	Question	Answer			
Amelia	Title	Title F			
Amelia	Tell us about you	Story 5			
Amelia	What are you looking for?	Story 6			
Jenny	Title	Title My			
Jenny	Tell us about you	Story 5			
Jenny	What are you looking for?	Story 5			

The preview table contains six columns as follows:

1. Displays the username for the account.
2. Displays the Profile Extra Information Questions / ***Extra Information*** /
3. Displays the Answers to the Profile Questions / ***Extra Information*** /

Extra Information

Title
Here's your chance for good first impression. Write something original in 80 chars. That title shows right next to your photo and is the first thing other members will see.
(max. 80 chars)

My Title

Tell us about you
Now, tell the others what makes you so unique separates you from the rest. Don't be shy... now is the time for bragging. Describe your perfect date, hobbies, interests, etc
(max. 3333 chars)

Story 5

What are you looking for?
Tell the others exactly what are you looking for. Chat, flirt, dates, whatever...
(max. 3333 chars)

Story 6

Interests

<input checked="" type="checkbox"/> Computers	<input checked="" type="checkbox"/> Music	<input checked="" type="checkbox"/> Nature	<input checked="" type="checkbox"/> Adventures
<input checked="" type="checkbox"/> Sport	<input checked="" type="checkbox"/> Movies	<input checked="" type="checkbox"/> Chat	

Marital Status:

/ Extra Information /

4. Approve the corresponding answer
5. Reject the corresponding answer
6. Provides a flexible way to edit the answer

Approve Answer

Username:	Jenny
Question:	What are you looking for?
Answer:	Story 5

The answer can be edited and approved in case only some of the words are not appropriate or it can be rejected at all.

3.12 Approve Blog Posts

Users can post blogs to their profile. You can define if the blog post should be approved and the number of allowed posts based on the user level or billing plan.

In this section You can read the blog content and approve it, reject it or edit it.

The screenshot shows the ASP.net DATING software interface. At the top, there's a logo for 'ASP.net DATING INTERNET DATING SOFTWARE'. To the right, it says 'Welcome admin | Logout'. Below the header, a blue bar displays 'At a glance: 0 new members for the last twenty-four hours; 0 photos pending; 3 answers pending'. The main area is titled 'Approve Blog Posts' with a sub-section title 'Approve Blog Posts' and a note 'Use this section to approve or reject blog posts that require approval...'. A dropdown menu 'Blog posts per page' is set to 10. A table lists a single blog post by user 'Lora' with the title 'My new blog'. The content of the post is '

Hi there,

This is my blog! Check it out.

'. To the right of the content are two small thumbs-up icons and a 'Edit' link. On the left, a sidebar titled 'User Management' contains a long list of administrative links, including 'Browse Members', 'Browse Photos', 'Browse Messages', 'Browse Spam Suspects', 'Browse Video Uploads', 'Approve Photos', 'Approve Photos2', 'Approve Videos', 'Approve Video Uploads', 'Approve Audio Uploads', 'Approve Answers', 'Approve Blog Posts', 'Send Announcement', 'Spam Check', 'Abuse Reports', and 'User Levels'. The number '3' is visible in the top right corner of the screenshot area.

3.13 Send Announcement

If YOU need to send an announcement to all the site members the easiest way is using this section. It allows YOU to keep them up to date with the latest updates and features.

This is a test announcement..

Description: Use %%NAME%% or %%USER%% to specify the user's name or username

The formatting of the text is the same as in the common text editors used by most of the users.

3.14 Spam Check

This feature is an option. It can be enabled or disabled from “Settings (see page 54)”. It helps the administrators to better manage and prevent the spam messages and the users that send them. The first user’s mails (the exact number of messages can be specified in settings option “Message Verifications Count (see page 69)”)

The screenshot shows the ASP.net DATING software interface. At the top, there's a logo for "ASP.net DATING INTERNET DATING SOFTWARE". On the right, it says "Welcome admin | Logout". Below the header, a blue bar displays "At a glance : 0 new members for the last twenty-four hours; 0 photos pending; 4 answers pending". The main content area is titled "Spam Check" and contains a sub-section titled "Spam Check" with the instruction "Use this section to check members mail for spam...". A dropdown menu "Messages per page" is set to 10. A table lists messages from "Cane" to various receivers: Ben, Jenny, Amelia, jenna, and Jane. Each message contains a link to "http://spam.com" followed by the text "You just won a million dollars! Just click on the following link http://spam.com". To the right of each message are two small icons (a hand and a delete symbol) and a "Delete User" link. Below the table, six numbered circles (1 through 6) with arrows pointing upwards are aligned with specific parts of the interface: circle 1 points to the "Sender" column header, circle 2 points to the "Receiver" column header, circle 3 points to the "Message" content, circle 4 points to the "Delete User" link for the first message, circle 5 points to the "Delete User" link for the fifth message, and circle 6 points to the "Delete User" link for the sixth message.

Sender	Receiver	Message
Cane	Ben	You just won a million dollars! Just click on the following link http://spam.com You just won a million dollars! Just click on the following link http://spam.com
Cane	Jenny	You just won a million dollars! Just click on the following link http://spam.com
Cane	Amelia	You just won a million dollars! Just click on the following link http://spam.com
Cane	jenna	You just won a million dollars! Just click on the following link http://spam.com
Cane	Jane	You just won a million dollars! Just click on the following link http://spam.com

1. This section shows the username of the message sender.
2. Contains the usernames of the receivers.
3. The entire message content is displayed in this section.
4. If the messages are not a spam they can be approved from here.
5. If the message is not a spam one (but still not an appropriate one or send to more users) or the administrator is not quite sure yet if this user sends spam messages the messages can be rejected in order to observe this user more, the messages can be rejected from here.
6. If you are sure that the user sends spam messages you can delete his/her account from here. This will delete all the information and messages related with this user.

3.15 Abuse Reports

Site members help you keep your site clean! If the site members find that a photo, a profile or a message is inappropriate they can report it as an abuse. This feature allows you to see all the reports and take the necessary actions.

Abuse Reports

Abuse Reports
Use this section to view reported abuses...

Filter

Reported By:	<input type="text"/>
Reported User:	<input type="text"/>
ReportType:	<input type="button" value="▼"/>
From Date :	<input type="button" value="day"/> <input type="button" value="month"/> <input type="button" value="year"/>
To Date :	<input type="button" value="day"/> <input type="button" value="month"/> <input type="button" value="year"/>
Reviewed:	<input type="button" value="False"/> <input type="button" value="True"/>

Date Reported	Reported By	Reported User	Report	Type	Actions
5/15/2007 7:35:43 PM	Ziggo	Jane	Ugly as Hell! 	Photo	Mark as Reviewed Delete Photo Delete User
5/15/2007 9:34:56 PM	Cane	admin	100% spammer! Message: Your photo has been approved!	Message	Mark as Reviewed Delete Message Delete User Delete User and Their Messages
5/25/2007 2:34:43 PM	Jane	Johnny	test	Profile	Mark as Reviewed Delete User

[First] [Prev] Showing 1-3 from 3 total [Next] [Last]

Use the filter to show only certain reports or preview all without entering a criteria. The result table shows the report detailed information:

1. **Date Reported** – the date the user have posted the report;
2. **Reported By** – the user who have posted the report;
3. **Reported User** – the user that has been reported for an abuse;
4. **Report** – the report content which include the abuse and a description why it is considered as such;
5. **Type** – the type of the reported abuse – for now three types of abuse can be reported: Photo, Message and a Profile;
6. **Actions** – the actions which can be taken depending on the report type:
 - **Mark as Reviewed** (same for all types) - if you think that the report is not an abuse, or need more reports, you can mark it as reviewed. This way it will disappear from the results table and can be previewed anytime setting the filter option “Reviewed:” to True;
 - **Delete Photo** (only for type Photo) – if you are agree the reported photo is inappropriate you can delete it from here;
 - **Delete User** (same for all types) – this option is for deleting not only the reported abuse type but the reported user’s account;
 - **Delete Message** (only for type Message) – if you are agree the reported message is inappropriate you can delete it from here;
 - **Delete User and Their Messages** (only for type Message) – this option is for deleting not only the reported message but the reported user’s account and all the messages they have sent.

In case of more reports for a single abuse (in example: a photo is reported as an abuse from more than 50 users) if you mark one of the reports as reviewed the others will stay in the table, but if you delete one of the reports all others will be set as reviewed (for future statistics and information).

3.16 User Levels

Users can have different rights depending on their level. The user level is defined by the score they have. For each user action a set of points is given. The number of points can be defined in "User Scores and Levels" section in Settings (see page 54).

The screenshot shows the 'Manage User Levels' page of the ASP.net DATING software. At the top, there's a logo for 'ASP.net DATING INTERNET DATING SOFTWARE' and a welcome message 'Welcome admin | Logout'. Below that, a blue bar displays 'At a glance: 1 new members for the last twenty-four hours; 56 photos pending; 830 answers pending'. The main area has a title 'Manage User Levels' with a sub-instruction 'Use this section to create user levels and specify restrictions for them ...'. A table titled 'User Levels' lists three levels: 'Beginner' (Level 1, 0 points), 'Regular' (Level 2, 200 points), and 'Expert' (Level 3, 1000 points). Each row includes 'Delete' and 'Edit' buttons. On the left, a sidebar titled 'User Management' lists various actions like 'Browse Members', 'Browse Photos', etc. A 'Add New Level' button is located at the bottom right of the table.

Level	Icon	Name	Minimum Score	Actions
1	1	Beginner	0	Delete Edit
2	2	Regular	200	Delete Edit
3	3	Expert	1000	Delete Edit

You can create new user level by clicking "Add New Level" button or delete and edit existing ones from Actions. The options for a level are as follows:

User Level Details	
Name	Beginner
Minimum Score	0
Level-based Restrictions	
Allow to moderate photos	<input type="checkbox"/>
Allow to participate in face control	<input type="checkbox"/>
Maximum number of photos the member can upload	10
Maximum number of videos the member can embed	6
Member can create groups	<input checked="" type="checkbox"/>
Member can create blogs	<input checked="" type="checkbox"/>
Maximum number of groups the member can join	30
Maximum number of videos the member can upload	3
Maximum number of audio uploads the member can upload	3
Auto approve answers	<input type="checkbox"/>
Auto approve photos	<input type="checkbox"/>
Auto approve videos	<input type="checkbox"/>
Auto approve audio uploads	<input type="checkbox"/>
Can report abuse	<input checked="" type="checkbox"/>
Can use chat	<input checked="" type="checkbox"/>
Can use skin	<input checked="" type="checkbox"/>
Can edit skin	<input checked="" type="checkbox"/>

4 Contests

ASPnetDating software now allows a better way for rating the users' photos. The contests creation provides a flexible way to define the terms and conditions for each one. They can be restricted by gender, age or time duration. Easy to manage and browse all contests' entries.

4.1 Manage Contests

ASPnetDating software now allows a better way for rating the users' photos. The contests creation provides a flexible way to define the terms and conditions for each one. They can be restricted by gender, age or time duration. Easy to manage and browse all contests' entries. To create or manage contest select “Manage Contest” from Contests (see page 24) section menu:

A filter is provided if you prefer to view only active or inactive contests. To view all contests just click search without specifying the contest status.

The screenshot shows the "Manage Contests" interface. At the top, it says "Manage Contests" and "Here you can create, edit and delete contests". Below that is a "Filter" button and an "[Expand filter]" link. The main area is a table with columns: Name, Gender, Age Range, Date Created, Date Ends, and Actions. The table contains three rows of data:

Name	Gender	Age Range	Date Created	Date Ends	Actions
Female Contest	Female		5/31/2007	6/14/2007	View Entries Edit Delete
Age Contest		30-40	6/14/2007		View Entries Edit Delete
Best Photos			6/21/2007		View Entries Edit Delete

Below the table, it says "Showing 1-3 from 3 total" and has a "Add New Contest" button.

For each contest several information fields are displayed:

1. **Name** – this is the name of the contest;
2. **Gender** – shows if the contest is restricted by gender;
3. **Age Range** – shows if the contest is restricted by age range;
4. **Date Created** – specify the date the contest was created, this is also the contest' start date;
5. **Date Ends** – shows if the contest is available to a specific date;
6. **Actions** – actions available for each contest:
 - **View Entries** – shows all entries for the corresponding contest;
 - **Edit** – allows you to edit all contest terms and data;
 - **Delete** – deletes the selected contest;

To create a new contest – click “Add New Contest” button. When you create or edit a contest several fields are provided:

1. **Contest Name** – enter or edit the name of the contest;

2. **Description** – provide more information for the contest purpose or requirements;
3. **Restricted to Gender** – here you can specify if the contest will be restricted by gender – only for females, males or couples. If a user from different gender than the one selected tries to enter the contest a message describing the reason they cannot participate appears.
4. **Terms** – specify the terms to enter the contest;
5. **Age Range** – here you can specify if the contest will be restricted by age. If a user from different age range than the one selected tries to enter the contest a message describing the reason they cannot participate appears.
6. **Date Ends** – if you want the contest to be for a certain period of time you can set end date. After it expires the contest can be viewed in past contests.

Manage Contests
Here you can create, edit and delete contests

Contest

Contest Name:	Age Contest
This contest is restricted by age.	
Description:	
Restricted to Gender:	
only users from 30 to 40 years are allowed.	
Terms:	
Age Range	from <input type="text" value="30"/> to <input type="text" value="40"/>
Date Ends:	<input type="text" value="day"/> <input type="text" value="month"/> <input type="text" value="year"/>
<input type="button" value="Save"/> <input type="button" value="Cancel"/>	

4

4.2 Contest Entries

Contest entries can be filtered by Contest Name or user name. To view all contests entries click search without applying a filter.

4

Contest Entries			
Filter [Expand filter]		Photos per page: 20	
Username	Photo	Contest Name	Actions
Jenny		Best Photos	Delete
Cane		Best Photos	Delete
Ben		Best Photos	Delete
Jane		Female Contest	Delete
Amelia		Female Contest	Delete

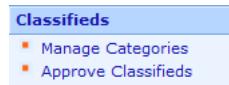

[First] [Prev] Showing 1-5 from 5 total [Next] [Last]

For each entry several info fields are provided:

1. **Username** – the name of the user who participate in the contest;
2. **Photo** – a thumbnail of the photo selected by the user to enter the contest;
3. **Contest Name** – the name of the contest in which the user participates;
4. **Actions** – you can delete the entry if it is not appropriate or does not meet the contest requirements. The photo will be removed from the contest but it will not be deleted from the user's photos.

5 Classifieds

When enabled the features allows your users to post classified ads. Each classified ad has name, description, a few photos and an expiration date. You can also organize all ads by categories. There are settings allowing you to restrict the posting to users above certain levels or only to paid users or to specific billing plan. For spam prevention reasons ads can require approval before they are posted live.

5.1 Manage Classifieds Categories

In this section you can create new categories or modify existing ones:

The screenshot shows the ASP.net DATING software administration interface. At the top, there's a logo for "ASP.net DATING INTERNET DATING SOFTWARE" and a welcome message "Welcome admin | Logout". Below the header, a banner displays "At a glance: 2 new members for the last twenty-four hours; 73 photos pending; 917 answers pending". The main content area is titled "Edit Classified Categories" and contains a sub-section "Edit Classified Categories" with the instruction "In this section you can create new categories or modify existing ones...". A sidebar on the left lists various management sections: "User Management" (Browse Members, Browse Photos, Browse Messages, etc.), "Contests" (Manage Contests, Contest Entries), and "Classifieds" (Manage Categories, Approve Classifieds). The "Classifieds" section is currently active. The main content area shows three categories: "Buy/Sell/Trade", "Jobs", and "Pets", each with an "Edit" link next to it. At the bottom of the content area are two buttons: "Add new category" and "Delete selected category".

For each category You can specify its details and add sub categories:

Edit Category
Here you can add new ads for selected category or modify existing ones...

Category Details	
Name	Buy/Sell/Trade

Sub categories	
<input type="checkbox"/>	Baby & Kid Stuff
<input type="checkbox"/>	Books & Magazines
<input type="checkbox"/>	CD, DVD, Vid Games
<input type="checkbox"/>	Crafts & Hobbies
<input type="checkbox"/>	Electronics
<input type="checkbox"/>	Furniture

Add 1 new sub categories

5.2 Approve Classifieds

You can browse through the users added adds and approve, reject or edit them.

The screenshot shows the ASP.net DATING software interface. At the top, there's a logo for "ASP.net DATING INTERNET DATING SOFTWARE" and a welcome message "Welcome admin | Logout". Below the header, a banner displays "At a glance: 2 new members for the last twenty-four hours; 73 photos pending; 917 answers pending". The main content area is titled "Approve Classifieds" and contains the sub-section "Approve Classifieds" with the instruction "Use this section to approve or reject classifieds...". A dropdown menu "Classifieds per page" is set to 10. On the left, a sidebar titled "User Management" lists various administrative tasks such as Browse Members, Browse Photos, etc. In the center, under "Ads Details", there's a box for "PHOTO NOT AVAILABLE". The classified details shown are: Category: Baby & Kid Stuff, Posted by: ivan, Subject: test, Description: <p>testarticle/-product</p>, Approved: No, Created on: 3/13/2009 3:39:46 AM. To the right of these details are buttons for "Approve", "Reject", and "Edit", along with a "Reason:" input field.

To edit an add click on Edit button on the right side. You have a full control over its details and content.

6 Group Management

Group Management features allows you to organize the site groups in categories, provides full control over the existing groups. Along with the approve answers, photos and videos, this feature helps you keep your site clean. Before any of the user created groups can be seen on your site, first it must be approved by you.

6.1 Manage Categories

ASPnetDating software allows you to organize the site groups in categories. This feature provides their management.

The screenshot shows the ASP.net DATING software interface. At the top, there's a logo for "ASP.net DATING INTERNET DATING SOFTWARE" and a welcome message "Welcome admin | Logout". Below the header, a banner displays "At a glance: 0 new members for the last twenty-four hours; 2 photos pending; 0 answers pending". The main content area is titled "Manage Categories" and contains a sub-section "Manage Categories" with the instruction "In this section you can create new categories or modify existing ones...". A table lists four categories: "Food", "Automobiles", "Women", and "Movies". Each category has an "Edit" link and a "Groups" link. To the left of the main content, there's a sidebar with "User Management" and "Group Management" sections, each containing several links. The "Group Management" section includes "Manage Categories", "Browse Groups", and "Approve Groups".

The table shows:

1. **Name** – the names of the existing categories;
2. **Order** – option to change the categories order;
3. **Edit** – here you can edit the category name:

The dialog box is titled "Manage Categories" with the sub-instruction "In this section you can create new categories or modify existing ones...". It has a form titled "Edit Category Name" with a "Name" input field containing "Movies". At the bottom are "Save Changes >>" and "Cancel" buttons.

4. **Groups** – shows the groups contained in the corresponding category.

A new category can be created by clicking the "Add new category" button:

Manage Categories
In this section you can create new categories or modify existing ones...

Add Category

Name	<input type="text"/>
<input type="button" value="Save Changes >>"/> <input type="button" value="Cancel"/>	

You can delete one or more categories by selecting them from the table and clicking the "Delete selected category" button.

6.2 Browse Groups

This feature provides full control over the existing groups. You can preview, edit or delete them.

Group Management

Group Management
Use this section to browse, edit or delete groups of your site...

Filter

Category:	<input type="text"/>
Owner:	<input type="text"/>

Access level:	<input type="text"/>
Approved:	<input type="text"/>
<input type="button" value="Search"/>	

Groups per page:

Name	Owner	Category	Created on	Access level	Edit	Delete
 Consectetuer adipiscing elit	Jane	Food	6/6/2007	Public	<input type="button" value="Edit"/> <input type="button" value="Delete"/>	<input type="button" value="Edit"/> <input type="button" value="Delete"/>
 Lorem ipsum dolor sit amet	Jane	Movies	6/6/2007	Moderated	<input type="button" value="Edit"/> <input type="button" value="Delete"/>	<input type="button" value="Edit"/> <input type="button" value="Delete"/>
 CNC 3	cody	Women	6/5/2007	Public	<input type="button" value="Edit"/> <input type="button" value="Delete"/>	<input type="button" value="Edit"/> <input type="button" value="Delete"/>

[First] [Prev] Showing 1-3 from 3 total [Next] [Last]

A filter is provided if you want to preview only groups by certain criteria. The preview table contains:

1. **Name** – the name of the group;
2. **Owner** – the user who has created the group, or the user to whom the group ownership has been transferred;
3. **Category** – the category to which the group belongs;
4. **Created on** – the group creation date;
5. **Access level** – shows the access level set by the user, there are three possible levels:
 - **Public** – the group is visible to all site members and everyone can join it without invitation by the group owner;
 - **Moderated** – the group is visible to all site members but in order to join the group the user must send a request which must be approved by a group administrator;
 - **Private** – the group is visible only as a thumbnail and short description in the groups list but it cannot be previewed if the user is not a group member. A user can join a private group only if they have received an invitation from a group administrator.
6. **Edit** – you can delete the group by selecting "delete" link or edit its information:

Edit Group
Use this section to edit a group...

Group Information	
Group Icon

The approve groups feature shows the group icon and full description. You can approve it, reject it or edit its content if necessary.

7 Site Management

This set of features gives you full control over your site functionality and features. ASPnetDating provides Multilanguage support. Casual dating, adult, etc - configure your site the way you want it. Using our site manager you have the ability to define each and every aspect of your users' profiles. Gone are the days when you had to edit those HTML files in order to add the latest news! Our news manages does everything for you - automatically. Edit e-mail templates to include that special catch that will make your users eager to visit your site again and again. Do YOU prefer the Front End to contain YOUR own LOGO? The system provides you an easy way to change the default one. A flexible way to edit all content pages and views.

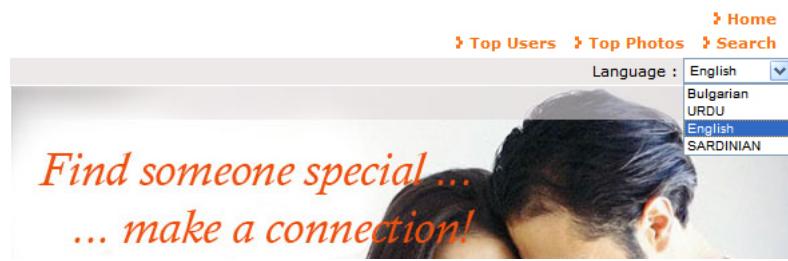

7.1 Edit Languages

ASPnetDating provides Multilanguage support. Use this section to edit your website languages.

Language	Active	Order	Commands
Bulgarian	Yes	▼	<input type="button" value="Edit"/>
Spanish	No	▲ ▼	<input type="button" value="Edit"/> <input type="button" value="Delete"/>
URDU	Yes	▲ ▼	<input type="button" value="Edit"/> <input type="button" value="Delete"/>
English	Yes	▲ ▼	<input type="button" value="Edit"/>
SARDINIAN	Yes	▲	<input type="button" value="Edit"/> <input type="button" value="Delete"/>

1. Shows the language name
2. Shows the status of the selected language. The admin can deactivate the languages that will not be available for the users:

3. The languages can be ordered in the drop-down menu as desired. Every language can be moved up or down in the list.
4. The corresponding language can be edited:

Language details	
Language name	Bulgarian
Active	<input checked="" type="checkbox"/>
<input type="button" value="Save"/> <input type="button" value="Cancel"/>	

The language name or the active status can be changed. Or it can be deleted

5. A new language can be added at any time:

Language details	
Language name	<input type="text"/>
Active	<input type="checkbox"/>
<input type="button" value="Save"/> <input type="button" value="Cancel"/>	

7.2 Edit Topics & Questions

7

Casual dating, adult, etc - configure your site the way you want it. Using our site manager you have the ability to define each and every aspect of your users' profiles. You can set the topics, columns, questions, possible answers, define if any answer is required or if should be approved first. It's all up to you.

7.2.1 Edit Topic

In order to customize the aspects of the user profiles for your site first the topics must be edited:

Title	EditColumns	ViewColumns	Order	
Basic Information	2	2	▼	
NewTopic	1	1	▲▼	
Extra Information	1	1	▲▼	
NewTopic	1	1	▲▼	
NewTopic	1	1	▲▼	
NewTopic	1	1	▲▼	
NewTopic	1	1	▲▼	
NewTopic	1	1	▲▼	
NewTopic	1	1	▲	

1. Shows the Profile Topic Title
2. The numbers of columns in which the topic is displayed for Edit Profile state
3. The numbers of columns in which the topic is displayed for View Profile state
4. The topics can be ordered as desired. Every topic can be moved up or down in the list.
5. The details for every topic are the topic name and the numbers of columns in which the topic is previewed in Edit/View Profile state. The “**Topic Questions**” table displays the questions included in the corresponding topic, the description (if available), is it required or not and the order in the topic.

Name	Description	Required	Order	
Height		Yes	▼	
Weight		Yes	▲▼	
Body Type		No	▲▼	
Looking for		No	▲▼	
Eyes		No	▲▼	
Hair		No	▲▼	
Smoking		No	▲▼	
Drinking		No	▲	

Every question can be edited. Each field and option available is described in detail in Edit Question (see page 36).

The screenshot shows the 'Edit Question' interface with two main sections: 'Question Details' and 'Answers'.

Question Details:

- Name: Hair
- Alternative Name: Hair
- Description: (empty text area)
- Hint: (empty text area)
- Edit Style: SingleChoiceSelect
- Show Style: SingleChoice
- Search Style: MultiChoiceCheck
- Required: (checkbox)
- Requires Approval: (checkbox)
- Applies To: Males, Females, Couples (checkboxes checked)

Answers:

- Brown
- Blond
- Black
- Gray
- White
- Red
- Bald

Buttons at the bottom of the answers section:

- Add
- 1 (dropdown menu)
- new choices
- Add
- Delete selected choices

Buttons at the bottom of the page:

- Cancel
- Save

6. Adds a new topic with default Name, Description and Required fields. After added the topic can be edited as explained in Edit Question (see page 36).

- **Name:** "NewName"
- **Description:** "New description"
- **Required:** "Yes"

7. Deletes the selected questions

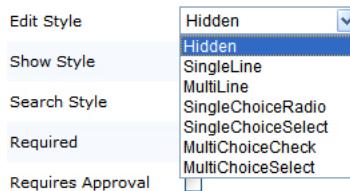

7.2.2 Edit Question

When a new topic is added the fields for every question have default values:

Question
Here you can describe your question and its possible answers. Also you can set question's view, edit and search styles...

Question Details	
Name	NewName
Alternative Name	New alternative name
Description	New description
Hint	New hint
Edit Style	Hidden
Show Style	Hidden
Search Style	Hidden
Required	<input checked="" type="checkbox"/>
Requires Approval	<input type="checkbox"/>
Applies To	<input checked="" type="checkbox"/> Males <input checked="" type="checkbox"/> Females <input checked="" type="checkbox"/> Couples
<input type="button" value="Cancel"/> <input type="button" value="Save"/>	

- First is the "**Name**" of the question, it is previewed when the users creates or edit his/her account
- The "**Alternative Name**" is previewed when other users see your profile
- The "**Description**" and "**Hint**" gives the general information about the question and hints for filling it the appropriate way
- "**Edit Style**" customizes the question preview in edit profile mode

- Hidden – the question will be hidden for the user when editing the profile
- SingleLine – the question contains answer that can be written in a single line:

Extra Information

Title
Here's your chance for good first impression. Write something original in 80 chars. That title shows right next to your photo and is the first thing other members will see.
(max. 80 chars)

Mery's Title

- MultiLine – the answer to this type of question is a multiple line text description:

Tell us about you
Now, tell the others what makes you so unique separates you from the rest. Don't be shy... now is the time for bragging. Describe your perfect date, hobbies, interests, etc
(max. 3333 chars)

I am a test account...

- SingleChoiceRadio – the answer to this question has only one option that can be checked or not in a radio button:

SingleChoiceRadio

test

- SingleChoiceSelect – There is only answer that can be selected from a single drop-down menu:

Marital Status:

- MultiChoiceCheck – A several options can be selected:

Interests

<input checked="" type="checkbox"/> Computers	<input type="checkbox"/> Music	<input type="checkbox"/> Nature	<input type="checkbox"/> Adventures
<input checked="" type="checkbox"/> Sport	<input checked="" type="checkbox"/> Movies	<input checked="" type="checkbox"/> Chat	

- MultiChoiceSelect – a question that contains several answers that can be selected from a drop-down menu:

Multi Choice Select

answer1
answer2
answer3
answer4

When one of the styles are selected (except Hidden, SingleLine and MultiLine) a new panel appears for adding answers to the corresponding question:

Question Details

Name	<input type="text" value="SingleChoiceSelect"/>
Alternative Name	<input type="text" value="New alternative name"/>
Description	<input type="text" value="New description"/>
Hint	<input type="text" value="New hint"/>
Edit Style	<input type="button" value="SingleChoiceSelect"/>
Show Style	<input type="button" value="Hidden"/>
Search Style	<input type="button" value="Hidden"/>
Required	<input checked="" type="checkbox"/>
Requires Approval	<input type="checkbox"/>
Applies To	<input checked="" type="checkbox"/> Males <input checked="" type="checkbox"/> Females <input checked="" type="checkbox"/> Couples

Answers

<input type="checkbox"/> Answer	<input type="button" value="Add"/> <input type="button" value="1"/> <input type="button" value="new choices"/> <input type="button" value="Add"/>
<input type="button" value="Delete selected choices"/>	
<input type="button" value="Cancel"/> <input type="button" value="Save"/>	

5. “**Show Style**” customizes the question preview when showing the user profile

Show Style	<input type="button" value="Hidden"/>
Search Style	<input type="button" value="Hidden"/>
Required	<input type="checkbox"/>
Requires Approval	<input type="checkbox"/>

- Hidden – the question will be hidden for the user when editing the profile

- Slogan – only one question must be previewed as slogan, it is showed at the top of the user's profile and usually it is the user's title:

Ben's Title

- SingleChoice – display the information entered as answer to a SingleChoiceRadio or SingleChoiceSelect question:

Basic Information	
Height: 6' 2" - 188cm	Weight: 213 lbs - 97 kg
Body Type: Athletic	Looking for: Friendship
Eyes: Hazel	Hair: Brown
Smoking: Sometimes	Drinking: Often

- SingleLine – the question contains answer that is written in a single line:

Marital Status: Divorced

- MultiLine – the answer to this type of question is a multiple line text description:

Looking for: Friends, Chat, Story, Test

- MultiChoiceSmall – previews the answers to a SingleChoiceSelect or a MultiChoiceCheck question:

Interests: Sport, Music, Movies, Chat, Adventures

- MultiChoiceBig – it is the same as MultiChoiceSmall but in this case the number of answers is bigger and they will be previewed in a larger area:

Multi Choice Select:
<ul style="list-style-type: none"> <input checked="" type="radio"/> answer2 <input type="radio"/> answer3 <input type="radio"/> answer4

6. "Search Style" customizes the question preview in Custom Search mode.

There are five styles available:

- Hidden – the question will be hidden for the user when editing the profile
- SingleChoice – display the information entered as answer to a SingleChoiceRadio or SingleChoiceSelect question:

Body Type
<input type="text" value="Slim"/>
Looking for
<input type="checkbox"/> Chat <input type="checkbox"/> Dates <input type="checkbox"/> Sex <input type="checkbox"/> Friendship <input type="checkbox"/> Something serious

- MultiChoiceSelect – a question that contains several answers that can be selected from a drop-down menu:

- RangeChoiceSelect – a question that contains range of values of type **from ... to ...**:

7. The "**Required**" checkbox gives the option for making this question obligatory
 8. If "**Requires Approval**" is checked, the question will be previewed in the user's account only after it has been seen and approved by a site administrator
 9. "**Applies To**" checkboxes gives the option for the question to be customized only for a determinate gender or couples
-

7.3 Edit News

Gone are the days when you had to edit those HTML files in order to add the latest news! Our news manager does everything for you - automatically. Just add those news, click "Save" and they appear instantly on your site. The news box itself is a native ASP.NET component and you can place it on any page you wish.

The screenshot shows the 'Edit News' section of the ASP.net DATING administration interface. At the top, there's a banner with the text 'At a glance : 0 new members for the last twenty-four hours; 0 photos pending; 4 answers pending'. Below this is a navigation bar with a coffee cup icon and the text 'Edit News'.

The left sidebar contains a vertical menu with several sections:

- User Management**: Browse Members, Browse Photos, Browse Messages, Approve Photos, Approve Videos, Approve Answers, Send Announcement.
- Site Management**: Edit Languages, Edit Topics & Questions, Edit News, Edit Templates, Upload Site Logo, Edit Content Pages, Text Management, Settings.
- Admin Management**: Browse Admins.
- Payment Management**: Billing Settings.

The main content area is titled 'Edit News' and contains a sub-section 'Languages' with a dropdown menu set to 'English'. Below this is a table with two news items:

News	Date
Microsoft Reports First Quarter Earnings REDMOND, Wash., Oct. 26 /PRNewswire-FirstCall/ — Microsoft Corp. today announced first quarter revenue of \$10.81 billion for the period ended September 30, 2006, an 11% increase over the same quarter of the prior year. Operating income for the quarter was \$4.47 billion, an 11% increase compared with \$4.05 billion in the prior year period. Net income and diluted earnings per share for the first quarter were \$3.48 billion and \$0.35 per share. For the same quarter of the previous year, net income and diluted earnings per share were \$3.14 billion and \$0.29, including a \$0.02 per share	27 October 2006
Sony Unveils PlayStation 3 and Game Details The Sony console menus were rolled out to the US for the first time, and looked vaguely familiar—because they'd been borrowed from the Sony's PSP port-able . Using a horizontal and vertical scrolling circle, the interface resembles a stripped down version of both the Moxi DVR from Digeo, and Microsoft's upcoming Vista Media Center.	21 October 2006

At the bottom of the news list are three buttons: 'Add news', 'Save', and 'Delete selected news'.

The formatting of the text is the same as in the common text editors used by most of the users.

7.4 Manage Polls

You can easily create Polls from the administrative tool and let your users vote. Multiple polls are supported and a random one will show on each page load.

7.5 Edit Bad Words

Bad words filter for profile, messages, group topics, group posts, blogs, comments:

The screenshot shows the ASP.net DATING software interface. At the top, there's a logo and navigation links for 'Welcome admin' and 'Logout'. Below that is a status bar with member counts and photo pending information. The main area has a title 'Manage Bad Words' and a sub-section 'Manage Bad Words' with the instruction 'In this section you can enter bad words or modify existing ones...'. There's a checkbox labeled 'Use regular expressions'. A text area contains a list of bad words separated by new lines: *damn, *dyke, *fuck*, *shit*, @\$\$, and a note '* Every word have to be on new line'. A 'Save' button is at the bottom right of the text area.

7.6 Edit Templates

7

Edit e-mail templates to include that special catch that will make your users eager to visit your site again and again. Feel free to customize each e-mail type sent to your users.

7.6.1 Email Templates

1. **New password confirmation template** – the default email content that will be sent to the user when new account password is set. The e-mail is sent to the e-mail address entered by the user when registering.

The screenshot shows a 'New password confirmation template' editor. It has a 'Email subject' field containing 'Forgot your password?'. Below it is a rich text editor toolbar with various icons for bold, italic, underline, etc. The 'Email body' section contains the following text:

```
Hi %%RECIPIENT%%,  
In order to change your password please click on the following link:  
%%CONFIRM\_URL%%  
Greetings,  
Demo Dating Site
```

A note at the bottom says: 'Description: Use %%RECIPIENT%% where you want to specify the name of the recipient and %%CONFIRM_URL%% where you want to place the confirmation link'.

2. **Registration confirmation template** – the default email content that will be sent to the user when registered. The e-mail is sent to the e-mail address entered by the user when registering.

Registration confirmation template

Email subject: Complete your registration

Email body:

```
Hi %%RECIPIENT%%,  
In order to confirm your registration please click on the following link:  
%%CONFIRM_URL%%  
  
Greetings,  
Demo Dating Site
```

Description: Use %%RECIPIENT%% where you want to specify the name of the recipient and %%CONFIRM_URL%% where you want to place the confirmation link

3. **Message from member template** – the default email content that will be sent to the user when other member sent him/her a message. The e-mail is sent to the user's inbox.

Message from member template

Email subject: New Message from %%SENDER%%

Email body:

```
Hi %%RECIPIENT%%,  
You have new message from %%SENDER%%:  
%%MESSAGE%%  
  
Greetings,  
Demo Dating Site
```

Description: Use %%SENDER%% where you want to put the username of the message sender, %%RECIPIENT%% for the recipient of the message and %%MESSAGE%% for the actual message

4. **Invite a friend template** – the default email content that will be sent to the recipient when the user wants to invite him/her to check out the site. The e-mail is sent to the recipient's e-mail address provided by the user.

Invite a friend template

Email subject: Invitation from %%SENDER%%

Email body:

```
Hi,  
Check out this online dating website Demo Dating Site. I am sure you would like it.  
Greetings,  
%%SENDER%%
```

Description: Use %%SENDER%% where you want to put the first and the last name of the sender

5. **Send to a friend template** – the default email content that will be sent to the recipient when the user wants to send another user's profile to a friend. The e-mail is sent to the recipient's e-mail address provided by the user.

Send to a friend template

Email subject: Your friend %%SENDER%% wants you to meet someone

Email body:

```
Hi,  
%%RECIPIENTNAME%%  
  
%%USERNAME%%  
Ano %%ACE%%.
```

Description: Use %%SENDER%% where you want to put the first and the last name of the sender

7.6.2 Miscellaneous Templates

1. **Approve photo message** – the default email content that will be sent to the user when a photo he/she uploaded was approved by administrator. The e-mail is sent to the user's inbox.

Approve photo message

Your photo has been approved!

Message

2. **Reject photo message** – the default email content that will be sent to the user when a photo he/she uploaded was rejected by administrator. The e-mail is sent to the user's inbox.

Reject photo message

Your photo has been rejected!

no reason message

Your photo has been rejected for the following reason:
%%REASON%%

message with reason

Description: You can use %%REASON%% in the "with reason" template message to specify reason's location

3. **Show interest message** – the default email content that will be sent when the user sends interest to another subscribed user in the site. The e-mail is sent to the recipient's inbox.

Show interest message

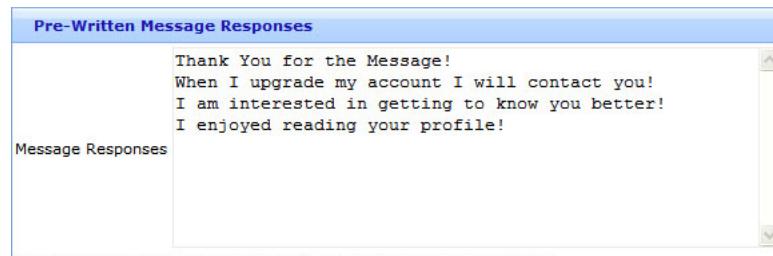

Subject: Someone is interested in you at Demo Dating Site

%%USER%% is interested in you!

Message

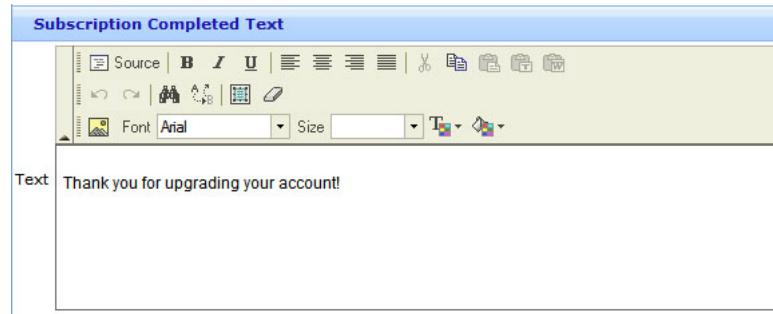

Description: You can use %%USER%% to specify the user who's interested

4. **Pre-Written Message Responses** – the default email content that can be chosen from a drop down menu and can be sent to another subscribed user in the site. Each line represents single pre-written message response. The e-mail is sent to the recipient's inbox.

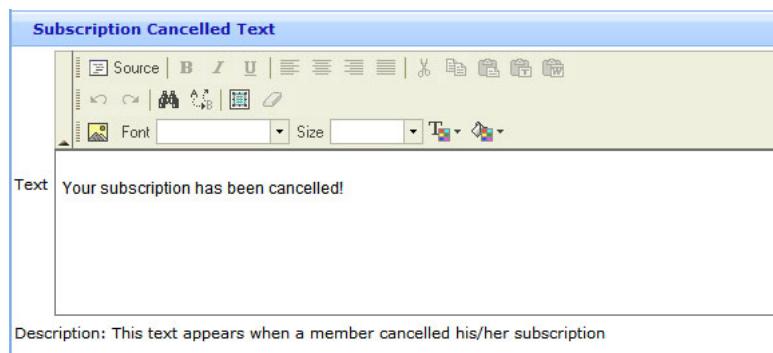

Description: Each line represents single pre-written message response

5. **Subscription Completed Text** – the default email content that will be sent when a member completes the subscription process. The e-mail is sent to the e-mail address entered by the user when registering.

Description: This text appears when a member completes the subscription process

6. **Subscription Cancelled Text** – the default email content that will be sent when a member cancelled his/her subscription. The e-mail is sent to the e-mail address entered by the user when registering.

Description: This text appears when a member cancelled his/her subscription

7.7 Edit Google Analytics

You can easily add google analytics tracking code:

The screenshot shows the ASP.net DATING administration interface. At the top, there's a logo for 'ASP.net DATING INTERNET DATING SOFTWARE' and a welcome message 'Welcome admin | Logout'. Below the header, a banner displays 'At a glance: 2 new members for the last twenty-four hours; 73 photos pending; 917 answers pending'. On the left, a sidebar menu includes sections for User Management, Contests, Classifieds, Group Management, and a central 'Edit Google Analytics' section. The 'Edit Google Analytics' section contains a sub-header 'Edit Google Analytics' with the instruction 'Use this section to edit google analytics'. It features a large text area labeled 'Google Analytics' with the placeholder 'Paste your google analytics tracking code in the textbox below'. Below this is a block of Google Analytics tracking code:

```

<script type="text/javascript">
var gaJsHost = (("https:" ==
document.location.protocol) ? "https://ssl." : "http://www.");
document.write(unescape("%3Cscript src='" + gaJsHost + "google-
analytics.com/ga.js' type='text/javascript'%3E%3C/script%3E"));
</script>
<script type="text/javascript">
var pageTracker = _gat._getTracker("UA-xxxxxx-x");
pageTracker._trackPageview();
</script>

```

At the bottom of the text area are 'Save' and 'Clear' buttons.

7.8 Edit Banners

Google AdSense and other banners support.

You can easily insert your AdSense or other banner code right from the admin tool. There is also an option to show advertisements only to free users.

7.9 Upload Site Logo

Do YOU prefer the Front End to contain YOUR own LOGO? The system provides you an easy way to change the default one. With user friendly interface in only three steps YOU will customize the system to looks the way YOU want!

The screenshot shows the ASP.net DATING administration interface. At the top, there's a logo for "ASP.net DATING INTERNET DATING SOFTWARE". To the right, it says "Welcome admin | Logout". Below the header, a blue bar displays "At a glance : 0 new members for the last twenty-four hours; 0 photos pending; 4 answers pending". The main content area has a title "Upload Logo" with a sub-section "Upload Logo" and a note "Use this section to upload web site logo". It features a preview of the current logo (a stylized orange person icon) and a form with fields "Image file" and "Browse...", followed by a "Upload" button. On the left, there's a vertical sidebar with several management sections: "User Management" (Browse Members, Browse Photos, etc.), "Site Management" (Edit Languages, Edit Topics & Questions, etc.), "Admin Management" (Browse Admins), and "Payment Management" (Billing Settings).

If YOU receive the following error

The application does not have file permissions to overwrite the image

That means a write rights must be set to folder “**Images**”, located in the AspnetDating installation folder.

7

7.10 Edit Content Pages

This is a very easy way of adding new pages to the site. No need of knowing html! You only have to enter the page name and content using the user-friendly text editor provided.

The screenshot shows the "Edit Pages" interface. At the top, it says "Edit Pages" and "Use this section to edit content pages". Below that is a "Languages/Pages" section with dropdown menus for "Select Language: English" and "Select Page: - Add new -". The main area is titled "Edit Page" and contains a "Page Title" field with "New page" and a "Page Content" rich text editor. The content area contains the text "This is a test page...". At the bottom, there are "Visible" settings (set to "Yes") and "Save" and "Delete" buttons.

A flexible and User-friendly Interfaced Text editor is provided for writing the page content. The formatting of the text is the

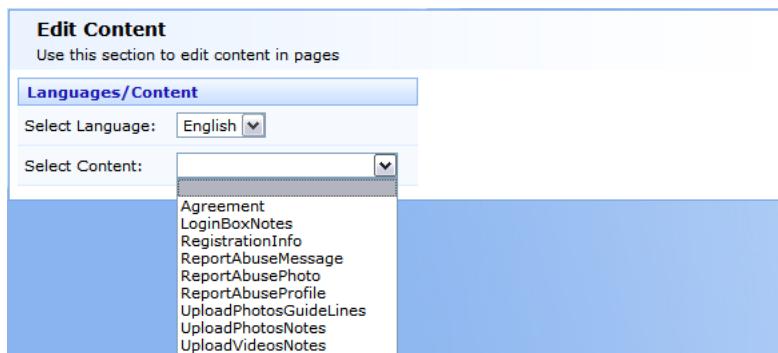

same as in the common text editors used by most of the users.

After saving the changes it will be added immediately to the site right after “**Home**” page:

7.11 Edit Content Views

A flexible way to edit all content views: Agreement, LoginBoxNotes, RegistrationInfo, ReportAbuseMessage, ReportAbusePhoto, ReportAbuseProfile, UploadPhotosGuideLines, UploadPhotosNotes, UploadVideosNotes. To edit any of the content views click on “Edit Content Views” from Site Management section on the menu.

1. **Agreement** – here you can specify the terms and conditions that will be displayed in user registration page when click on “I ACCEPT the terms and conditions”.

[I ACCEPT the terms and conditions](#)

[Register >>](#)

2. **LoginBoxNotes** – specify the registration text in login box – “Join us! Registration is 100% free and easy. Once registered - you have the opportunity to browse thousands of profiles with photos and to answer those you find interesting.”

[login | register](#)

[Forgot your password?](#)

Join us! Registration is 100% free and easy. Once registered - you have the opportunity to browse thousands of profiles with photos and to answer those you find interesting.

[Register now!](#)

3. **RegistrationInfo** – description provided in registration page – “*All you have to do is fill in the information. After the information is received we will send you a confirmation e-mail on the e-mail address you specify. You must click on the link in that e-mail to activate your account. After you activate your account you'll be redirected to a page where you can create your profile and upload photos.*”

Registration details

Country	United States
Region/State	<input type="text"/>
City	<input type="text"/>
Zip/Postal Code	<input type="text"/>
Name	<input type="text"/>
Gender	<input type="text"/>
Interested in	<input type="text"/>
Birthdate	day <input type="text"/> month <input type="text"/> year <input type="text"/>
Username	<input type="text"/>
E-Mail	<input type="text"/>
Password	<input type="text"/>
Confirm password	<input type="text"/>

All you have to do is fill in the information.
After the information is received we will send you a confirmation e-mail on the e-mail address you specify. You must click on the link in that e-mail to activate your account. After you activate your account you'll be redirected to a page where you can create your profile and upload photos.

4. **ReportAbuseMessage** – Info message provided when a user reports message as an abuse:

Message

Please tell us why you are reporting this user message

Report Abuse Cancel

5. **ReportAbusePhoto** – Info message provided when a user reports photo as an abuse:

User Photos

Please tell us why you are reporting this user photo

Report Abuse Cancel

6. **ReportAbuseProfile** – Info message provided when a user reports profile as an abuse:

Report Abuse

Please tell us why you are reporting this user

Report Abuse Cancel

7. **UploadPhotosGuideLines** – gives extended information to the users for the photos requirements:

**Photo Guidelines**

Please read the following guidelines before sending your photos:

- Group photos are only accepted if you have specified who you are and there are no more than 3 people on the photo.
- Avoid small photos. Your photo should be at least 150 x 150 pixels. The recommended resolution is 450 x 450.
- When scanning your photo please cut the empty areas around the photo - this way your photo will seem bigger and the file size will be smaller.
- Photos with erotic content are not allowed.
- Celebrity or copyrighted photos are not accepted.

8. UploadPhotosNotes – Set the terms and conditions for a photo upload:

Upload Photos

Posting Photos

Your photos are not going to be visible to the other members until they are approved by our team. This process can take up to 24 hours. Any photo that doesn't conform to our specifications will be deleted. For more information please read "Photo guidelines".

9. UploadVideosNotes – Set the terms and conditions for a video upload:

Upload Video

Upload Video File

Your videos are not going to be visible to the other members until they are approved by our team. This process can take up to 24 hours. Any video that doesn't conform to our specifications will be deleted.

7.12 Edit e-card types

This feature allows you to add static and animated e-cards.

Welcome admin | Logout

At a glance: 1 new members for the last twenty-four hours; 56 photos pending; 830 answers pending

Edit e-card types

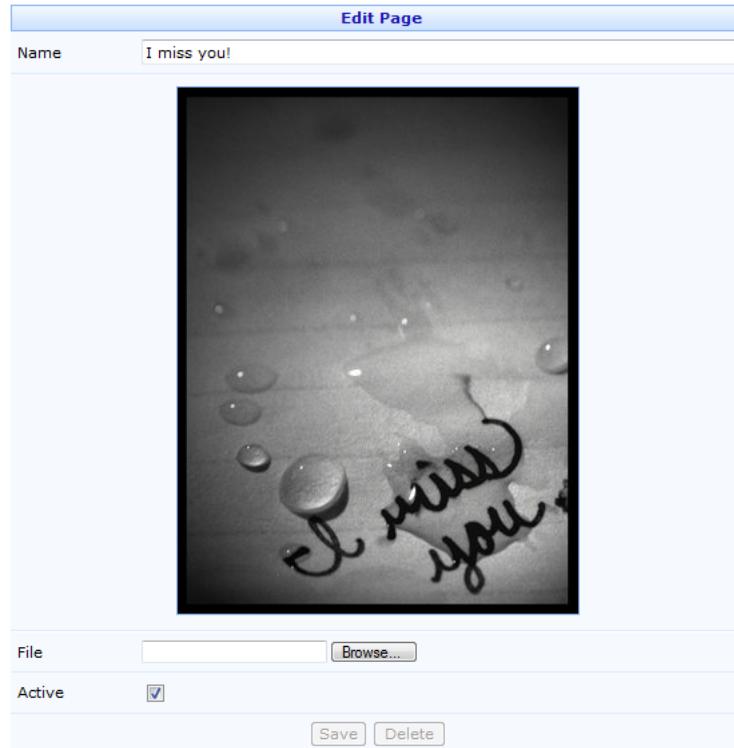

Use this section to edit e-card types

E-cards

Select e-card:

- A rose for you!
- I miss you!
- Happy birthday!
- Add new -

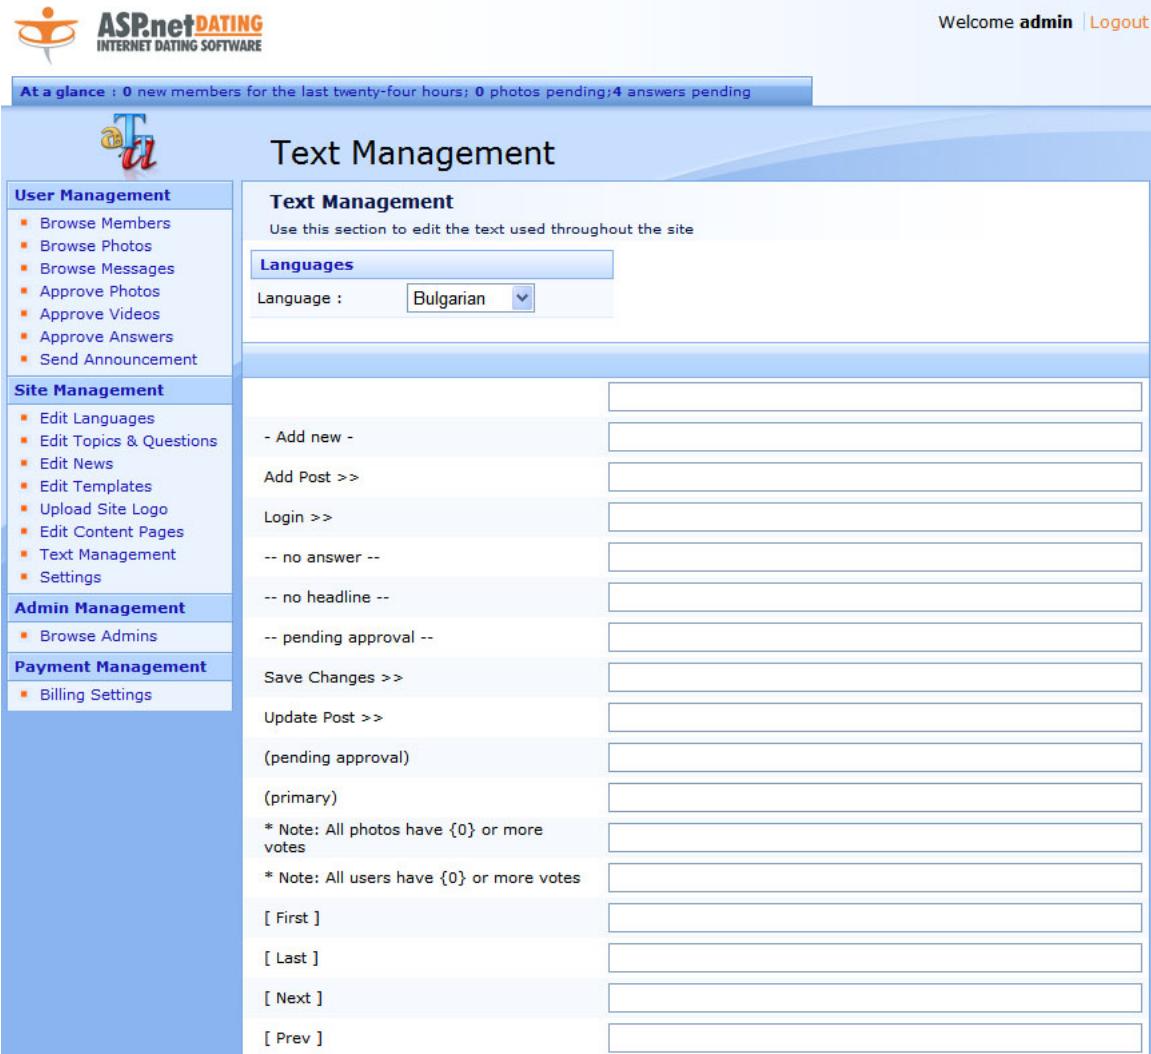

To add new e-card select "- Add new -" from the drop down menu. To edit existing one select it's name.

You can type/change the e-card name from the "Name" field. To upload the e-card use "File" field. The e-card can be set active from the "Active" checkbox.

7.13 Text Management

This section provides the system flexibility for Multilanguage usage. It has never been easier translating the whole site to as many languages as YOU want. All YOU have to do is write down the equivalent of the string in the language table on the corresponding language. The system will automatically replace it everywhere on the site where it has been used.

The screenshot shows the ASP.net DATING administration interface. At the top, there's a logo for "ASP.net DATING INTERNET DATING SOFTWARE" and a welcome message "Welcome admin | Logout". Below the header, a banner displays "At a glance : 0 new members for the last twenty-four hours; 0 photos pending; 4 answers pending". The main content area is titled "Text Management" and contains a sub-section titled "Text Management" with the instruction "Use this section to edit the text used throughout the site". A "Languages" dropdown menu is set to "Bulgarian". The page lists various text entries with their corresponding input fields:

- Add new -
- Add Post >>
- Login >>

- * Note: All users have {0} or more votes
- [First]
- [Last]
- [Next]
- [Prev]

7.14 Themes Manager

Themes Manager provides an easy way to preview and select through the variety of themes.

Three main pages (default, home and user profile) are chosen in order to give a better view and help in selection of the theme that best matches the notion of customer page.

Installed Themes
List of the available themes installed on your site

Adult1  preview select	Adult2  preview select	Blue1  preview select
Circles1  preview select	Colors1  preview select	Default  preview select
Girls1  preview select	Green1  preview select	Pastel1  preview select
Social1  preview select	Social2  preview select	Social3  preview select
Spring1  preview select	Urban1  preview select	Wedding1  preview select

There is also an option to download new themes from the ones available on our web site or to install a unique theme created for your site by our designers.

Custom Themes

Our designers will create a unique theme for your site. The new design can be based on your specifications, a mockup or existing design

The service includes custom theme based on your requirements. The custom theme service does not include programming changes or adding new features.
[Order custom theme for AspNetDating](#)

If you've already received your theme you can upload and install it below:

7.15 Settings

Casual dating, adult, etc - configure your site the way you want it. Using our site manager you have the ability to define each and every aspect of your users' profiles. You can set the topics, columns, questions, possible answers, define if any answer is required or if should be approved first. It's all up to you.

This section contains nine main areas. For each option there is a hint provided explaining in more details what this option is about:

Require payment	<input checked="" type="checkbox"/>	Unchecking this box will switch the site to free mode. Checking it will enable site payments.
Trial period (in days)	<input type="text" value="0"/>	
Support for couples	<input checked="" type="checkbox"/>	

7.15.1 Abuse Reports Settings

Abuse Reports

User can report profile abuse	<input type="checkbox"/>
User can report photo abuse	<input type="checkbox"/>
User can report message abuse	<input type="checkbox"/>
Abuse Reports per Page	<input type="text" value="20"/>

- **User can report profile abuse** – if checked the users will be able to report abuse for profiles.
- **User can report photo abuse** – if checked the users will be able to report abuse for photos.
- **User can report message abuse** – if checked the users will be able to report abuse for messages.
- **Abuse Reports per Page** – sets the number of reports that will be displayed per page.

7.15.2 Affiliate Settings

Affiliate Settings

Check to enable affiliates	<input checked="" type="checkbox"/>	?
Username minimum length	<input type="text" value="3"/>	?
Username maximum length	<input type="text" value="20"/>	?
Password minimum length	<input type="text" value="3"/>	?
Password maximum length	<input type="text" value="250"/>	?

Error Logging	
Log errors to file	<input checked="" type="checkbox"/>
Send errors to the developers	<input checked="" type="checkbox"/>
Save detailed IP log	<input type="checkbox"/>

- **Log errors to file** – if checked all the errors are written in a log file, placed in Logs folder.
- **Send errors to the developers** – if checked the errors are mailed to the developers.
- **Save detailed IP log** – if checked save detailed information with the user IP activities.

7.15.8 Group settings

Group settings		
Enable Groups	<input checked="" type="checkbox"/>	?
Automatically delete a group after XX days of inactivity	90	?
Enable Group Announcement	<input checked="" type="checkbox"/>	?
Enable Ajax Chat for Groups	<input checked="" type="checkbox"/>	?
Users must be logged on to browse groups	<input type="checkbox"/>	?
Users must be paid to browse groups	<input type="checkbox"/>	?
Allow users to create groups	<input checked="" type="checkbox"/>	?
Users must be paid to join groups	<input type="checkbox"/>	?
Groups per page	20	?
Group photos per page	20	?
Number of new groups	20	?
Number of new groups rows	2	?
Maximum number of topics on group home page	10	?
Maximum number of group members on group home page	10	?
Maximum number of group photos on group home page	10	?
Maximum posts to delete topic	10	?
Maximum groups per member	30	?
Maximum invitations	10	?
Maximum topics per group	5	?
Maximum topics for all groups	10	?
Maximum icon width	450	?
Maximum icon height	450	?
Maximum group photo width	450	?
Maximum group photo height	450	?
Maximum group event image width	450	?
Maximum group event image height	450	?
Maximum members to delete group	30	?
Group topics per page	20	?
Group posts per page	20	?
Enable moderated group invitation	<input checked="" type="checkbox"/>	?
Enable public group invitation	<input checked="" type="checkbox"/>	?
Maximum number of group events on group home page	5	?
Maximum number of group events on home page	5	?

- **Enable Groups** – if unchecked all groups feature for the site will be disabled.
- **Automatically delete a group after XX days of inactivity** - specify the maximum days of inactivity for a group after which it will be deleted automatically.
- **Enable Group Announcement** – if checked enables group announcement.
- **Enable Ajax Chat for Groups** – if checked Ajax Chat will be available for all groups.
- **Users must be logged on to browse groups** – if checked only logged in users will be able to browse the groups
- **Users must be paid to browse groups** – if checked only paid members will be able to browse groups
- **Allow users to create groups** – if checked all the signed in members will be able to create groups. Before appearing on the site, the group must be approved by administrator first.

- **Users must be paid to create groups** – if checked only paid members will be able to create groups. Before appearing on the site, the group must be approved by administrator first.
- **Users must be paid to join groups** – if checked only paid members will be able to join groups.
- **Groups per page** – sets number of groups that will be displayed per page (front-end).
- **Group photos per page** – sets number of group photos that will be displayed per page in the group gallery (front-end).
- **Number of new groups** – sets the number of groups that will be listed in new groups section (front-end).
- **Maximum number of topics on group home page** – sets the maximum number of topics that will be displayed on group's home page (front-end).
- **Maximum number of group members on group home page** – sets the maximum number of groups that will be displayed on group's home page (front-end).
- **Maximum number of group photos on group home page** – sets the maximum number of photos that will be displayed on group's home page (front-end).
- **Maximum posts to delete topic** – sets the maximum number of posts for a topic after which this topic cannot be deleted. This restriction applies to all group administrators, moderators and the site admin.
- **Maximum groups per member** – sets the maximum number of groups that a user can create and/or join.
- **Maximum invitations** – sets the maximum number of invitations a user can send.
- **Maximum topics per group** – specify the maximum number of topics a user can create for a group for period of 24 hours.
- **Maximum topics for all groups** – specify the maximum number of topics a user can create for all groups for period of 24 hours.
- **Maximum icon width** – sets the maximum width a group icon can have.
- **Maximum icon height** – sets the maximum height a group icon can have.
- **Maximum group photo width** – sets the maximum width a group gallery photo can have.
- **Maximum group photo height** – sets the maximum height a group gallery photo can have.
- **Maximum group event image width** - specify the maximum width for group event image.
- **Maximum group event image height** - specify the maximum height for group event image.
- **Maximum members to delete group** – specify the maximum number of members per group after which it cannot be deleted. This restriction applies to all group administrators, moderators and the site admin.
- **Group topics per page** – sets the maximum number of topics that will be displayed at "Message Board" page (front-end).
- **Group posts per page** – sets the maximum number of topics that will be displayed per page (front-end).
- **Enable moderated group invitation** – if checked enables invitation for moderated group.
- **Enable public group invitation** – if checked enables invitation for public group.
- **Maximum number of group events on group home page** - specify the maximum number of group events shown on group home page.
- **Maximum number of group events on home page** - specify the maximum number of group events shown on home page.
- **Maximum number of poll choices in group polls** - specify the maximum number of poll choices in group polls.

7.15.9 Mailing settings

In case an email was not sent these settings render the number of attempts and the time period for resending it.

Mailing settings	
Retry count	<input type="text" value="24"/>
Retry interval(in hours)	<input type="text" value="1"/>
Enable address book importer	<input checked="" type="checkbox"/>

- **Retry count** – defines the max number of resending the email.
 - **Retry interval (in hours)** – defines the time interval before the new attempt occurs.
 - **Enable address book importer** - if checked this feature allows users to invite their friends by importing e-mail addresses from yahoo, gmail, hotmail accounts.
-

7.15.10 Maintenance

Maintenance
Not activated user deletion time interval (in days) <input type="text" value="7"/> 

- **Not activated user deletion time interval (in days)** – this option specifies the time interval (in days) after which the system will delete accounts that have not completed the e-mail confirmation.
-

7.15.11 Miscellaneous settings

Groups different types of settings.

Miscellaneous settings	
Enable Spam Detection	<input checked="" type="checkbox"/>
Enable Profile Topics&Questions translation	<input checked="" type="checkbox"/>
Enable Flash Instant Messenger Integration (valid subscription required)	<input checked="" type="checkbox"/>
Enable Video Profile Integration (valid subscription required)	<input checked="" type="checkbox"/>
Enable Ajax Chat	<input checked="" type="checkbox"/>
Enable Blogs	<input checked="" type="checkbox"/>

- **Maximum photos per user** – specify the maximum number of photos that a user can upload for his/her profile.
- **Maximum photo width** – specify the maximum photo width that will be used in the site. If the user uploads a photo with larger width, it will be resized to fit the set one and then stored in the data base.
- **Maximum photo height** – specify the maximum photo height that will be used in the site. If the user uploads a photo with larger height, it will be resized to fit the set one and then stored in the data base.
- **Minimum photo width** - specify the minimum photo width that will be used in the site. If the user uploads a photo with smaller width, it will be resized to fit the set one and then stored in the data base.
- **Minimum photo height** - specify the minimum photo height that will be used in the site. If the user uploads a photo with smaller height, it will be resized to fit the set one and then stored in the data base.
- **Apply watermark on photos** – if this option is check a watermark will be applied on the user photos with size larger than the required one.
- **Watermark transparency level** – specify the transparency level of the watermark. This option works only if "Apply watermark on photos" option is enabled.
- **Watermark position** – specify the position of the watermark on the picture. You can select the required one from the drop down list. This option works only if "Apply watermark on photos" option is enabled.
- **Minimum picture width to apply watermark** – specify the minimum photo width a watermark to be applied. This option works only if "Apply watermark on photos" option is enabled.

- **Minimum picture height to apply watermark** – specify the minimum photo height a watermark to be applied. This option works only if “Apply watermark on photos” option is enabled.
- **Enable explicit photos** – checking this option will allow administrators to tag explicit photos. Those photos will only be displayed to the registered users. Visitors will see censored image.
- **Enable private photos** – checking this option will allow users to upload private photos. Those photos will be visible only to members chosen by the person who uploaded the photo.
- **Make explicit photos private** – checking it will mark all explicit photos as private and the user cannot remove the private status.
- **Show Thumbnails in Mailbox** – check this option to show thumbnails next to each mail in the mailbox.
- **Find faces in photos (FaceFinder plugin required)** – if FaceFinder plugin is installed check this option to enable it.
- **Photo comments** - if checked users can post comments on photos.

7.15.13 Profile Settings

Sets the maximum topic columns in which the profile will be previewed.

Profile Settings	
Maximum topic columns	<input type="text" value="5"/>
Number of profile comments to show	<input type="text" value="5"/>
Number of photo comments to show	<input type="text" value="5"/>

- **Maximum topic columns** – specify the maximum number of columns for edit, search and view topic that can be set by the administrator. For more information about topics please refer to “Edit topic (see page 34)” chapter.
- **Number of profile comments to show** - specifies the number of comments shown on the user profiles. If there are more comments the software will add a "more" link.
- **Number of photo comments to show** - specifies the number of comments shown on the user photos. If there are more comments the software will add a "more" link.

7.15.14 Rating Settings

These settings relate to voting, rating, user and photo count.

Rating Settings	
Minimum rating	<input type="text" value="1"/>
Maximum rating	<input type="text" value="10"/>
TopUser count	<input type="text" value="5"/>
TopPhoto count	<input type="text" value="5"/>
Minimum required votes for TopUser list	<input type="text" value="1"/>
Minimum required votes for TopPhotos list	<input type="text" value="1"/>
Enable Profile Ratings	<input checked="" type="checkbox"/>
Enable Photo Ratings	<input checked="" type="checkbox"/>
Enable Profile Voting	<input type="checkbox"/>
Enable Photo Contests	<input checked="" type="checkbox"/>
Minimum number of entries to start photo contest	<input type="text" value="2"/>
Number of favorite entries to use for comparison	<input type="text" value="8"/>
Number of entries to show in the top entries chart	<input type="text" value="12"/>
Disable voting for IP if accounts are more than	<input type="text" value="0"/>
Enable voting after specified period (in days)	<input type="text" value="0"/>
Enable voting after specified logins	<input type="text" value="0"/>
Enable voting after specified profile views	<input type="text" value="0"/>
Enable voting for comments	<input type="checkbox"/>

- **Minimum rating** – determines the minimum rating that can be given when voting.
- **Maximum rating** – determines the maximum rating that can be given when voting.
- **TopUser count** – determines the number of users that will be showed in the top users page.
- **TopPhoto count** – determines the number of photos that will be showed in the top photos page.
- **Minimum required votes for TopUser list** – determines the minimum votes a user must have to be considered for the Top Users list.
- **Minimum required votes for TopPhotos list** – determines the minimum votes a photo must have to be considered for the Top Photos list.
- **Enable Profile Ratings** – if unchecked the voting for users will be disabled and the Top Users page will be hidden.
- **Enable Photo Ratings** – if unchecked the voting for photos will be disabled and the Top Photos page will be hidden.
- **Enable Profile Voting** – if checked enables “vote up” and “vote down” for users’ profiles.
- **Enable Photo Contests** ([see page 24](#)) – if checked enables photo contest.
- **Minimum number of entries to start photo contest** – specifies the minimum number of photos needed for a contest to start.
- **Number of favorite entries to use for comparison** – specifies the number of entries of the user’s favorites.
- **Number of entries to show in the top entries chart** – specifies the number of entries shown in the top entries chart.
- **Disable voting for IP if accounts are more than** – if the number of accounts created from one IP is more than the number specified in the text field, the users with profiles created from this IP will be unable to vote for other members. If the value is “0” the number of accounts for IP is unlimited.
- **Enable voting after specified period (in days)** – determines the time period (in days) after which the users will be able to vote. This option can be combined with others from this section to define the rules for users’ voting.
- **Enable voting after specified logins** – determines the number of logins after which the users will be able to vote. This option can be combined with others from this section to define the rules for users’ voting.
- **Enable voting after specified profile views** – determines the number of user’s profile previews after which the user will be able to vote. This option can be combined with others from this section to define the rules for users’ voting.
- **Enable voting for comments** – if checked the users can vote for posted comments. Next to each comment there are two options (thumbs up and thumbs down), represented with the corresponding icons. The voting system is similar to the DIGG’ voting system. The rating can be -1(thumbs down) or +1 (thumbs up). If a comment reaches rating -5 or lower the software casts invisible to the comment.

7.15.15 Search Settings

Here the search options can be configured.

Search Settings	
Users per page	5
Videos per page	12
Users per page (grid)	16
Enable filter for online users	<input checked="" type="checkbox"/>
Distance Search enabled	<input checked="" type="checkbox"/>
Show distance from online user	<input checked="" type="checkbox"/>
Measure distance in kilometers	<input type="checkbox"/>
Maximum users returned for Distance Search	150
Maximum distance from User for Distance Search	1000

- **Users per page** – specifies the number of users shown per page for the search results preview (*Show as Profile List*).
- **Videos per page** - specifies the number of videos per page.
- **Users per page (grid)** – specifies the number of users shown per page for the search results preview – shows only the users' thumbnails (*Show as Photo Grid*).
- **Enable filter for online users** – if this option is checked a filter for online users appears in the “Who is online” page. The online users can be filtered by gender and age.
- **Distance Search enabled** – if this option is checked a custom search mode by distance is enabled in the users search page.
- **Show distance from user** – if this option is checked when a logged in user browses other member's profile the distance between them is displayed.
- **Measure distance in kilometers** – if checked measures the distance in kilometers otherwise in miles. This option refers to “Distance Search enabled”.
- **Maximum users returned for Distance Search** – specifies the maximum number of users that will be showed when a distance search is applied. This option refers to “Distance Search enabled”.
- **Maximum distance from User for Distance Search** – specifies the maximum distance from user for distance search. Measures in kilometers or miles depending on the selection made for “Measure distance in kilometers” option. This option refers to “Distance Search enabled”.

7.15.16 SEO settings

SEO settings

Enable Url Rewriting	<input checked="" type="checkbox"/>

7.15.20 Change Your Password

Changes the current administrator's password.

Change Your Password	
Current password	<input type="text"/>
New password	<input type="text"/>
Confirm new password	<input type="text"/>

8 Admin Management

Often there is the necessity of more than one person for administrating the different site contents, options and features. In this section YOU can create users and set the corresponding rights for the site administration.

8.1 Browse Admins

Often there is the necessity of more than one person for administrating the different site contents, options and features. In this section YOU can create users and set the corresponding rights for the site administration.

The screenshot shows the ASP.net DATING Admin Management interface. At the top, there is a logo for "ASP.net DATING INTERNET DATING SOFTWARE". On the right, it says "Welcome admin | Logout". Below the header, there is a banner with the text "At a glance : 0 new members for the last twenty-four hours; 0 photos pending; 4 answers pending". The main content area has a title "Admin Management" with a key icon. A sub-section titled "Admin Management" with the sub-instruction "Use this section to browse, edit or delete administrators..." is shown. A table lists three administrator accounts:

Username	Last login	Actions
admin	1/9/2007 12:53:08 PM	Edit
test	8/25/2006 2:59:46 PM	Edit Delete
testadmin	12/5/2006 3:01:58 PM	Edit Delete

At the bottom of the table is a "Add Admin" button. To the left of the main content area is a sidebar with several management categories and their sub-options:

- User Management**: Browse Members, Browse Photos, Browse Messages, Approve Photos, Approve Videos, Approve Answers, Send Announcement
- Site Management**: Edit Languages, Edit Topics & Questions, Edit News, Edit Templates, Upload Site Logo, Edit Content Pages, Text Management, Settings
- Admin Management**: Browse Admins
- Payment Management**: Billing Settings

For every account are showed the user name and Last Login time. Every account except the "admin" can be edited and deleted. The "admin" account can not be deleted because it is used mainly for sending system messages.

When editing the account there are two main directs.

The administrator password can be changed by providing the old one.

The screenshot shows the "Add/Edit Admin" form. At the top, it says "Add/Edit Admin" and "Use this section to modify administrator's details...". Below that is a section titled "Account Details" with three input fields: "Current password", "New password", and "Confirm new password".

The most important feature for managing the site administrators is setting the appropriate read/write rights. It helps allocate

the site management to more than one person and set different access to the administration sections for each one.

Sections	Read	Write
Manage Users	<input type="checkbox"/>	<input type="checkbox"/>
Browse Messages	<input type="checkbox"/>	<input type="checkbox"/>
Edit Texts	<input type="checkbox"/>	<input type="checkbox"/>
Edit Content Pages	<input type="checkbox"/>	<input type="checkbox"/>
Edit e-cards	<input type="checkbox"/>	<input type="checkbox"/>
Browse Photos	<input type="checkbox"/>	<input type="checkbox"/>
Photos Approval	<input type="checkbox"/>	<input type="checkbox"/>
Videos Approval	<input type="checkbox"/>	<input type="checkbox"/>
Audio Approval	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Answers Approval	<input type="checkbox"/>	<input type="checkbox"/>
Send Announcement	<input type="checkbox"/>	<input type="checkbox"/>

9 Payment Management

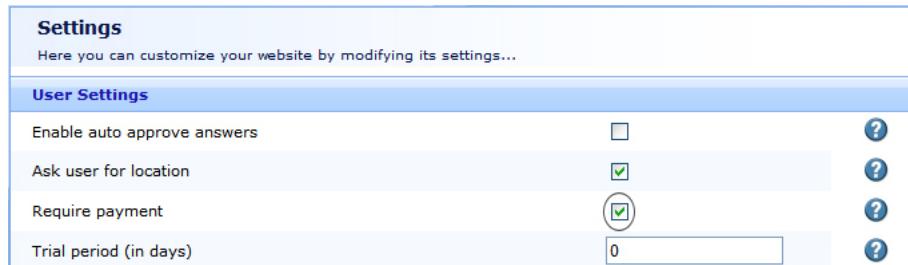

Choose any of the available payment processors. Define your own payment plans in terms of price and duration. Your users will be able to pick one payment plan and subscribe to it. Non-paid users will be able to register and browse/view profiles but will be unable to send messages.

9.1 Billing Settings

Choose any of the available payment processors. Define your own payment plans in terms of price and duration. Your users will be able to pick one payment plan and subscribe to it. Non-paid users will be able to register and browse/view profiles but will be unable to send messages.

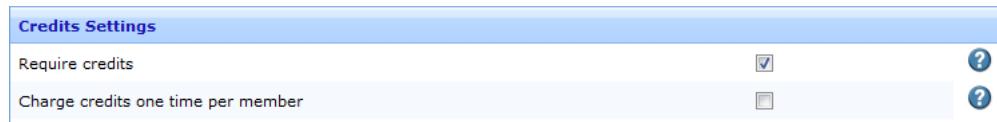

If you want to run a free site you can disable all payment-related functionality from the "Settings (see page 54)" screen:

The Billing Plans are displayed in a table:

9.2 Credits Packages

The site can work with either monthly payments or credits packages. To enable Credit packages check the "Require credits" option in Settings (see page 54). The users will be charged one credit each time they send a message.

If "Charge credits one time per member" is checked the user will be charged only the first time he/she sends a message to an user. The next messages to the same user will be free.

This feature allows you to manage the credit packages.

The screenshot shows the ASP.net DATING software's administration interface. At the top, there's a logo for "ASP.net DATING INTERNET DATING SOFTWARE" and a welcome message "Welcome admin | Logout". Below the header, a banner displays "At a glance: 0 new members for the last twenty-four hours; 7 photos pending; 3 answers pending". The main content area is titled "Credits Packages" and contains a sub-section "Credits Packages" with the instruction "Use this section to configure credits packages...". A table titled "Credits Packages" lists two items:

Name	Quantity	Price	Actions
Small Credit	10	\$10.00	Delete Edit
Medium Credit	20	\$21.06	Delete Edit

A "Add New Package" button is located at the bottom right of the table.

You can set "Name", "Quantity" (it takes one credit per action) and "Price" for the whole package.

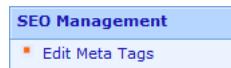

This is a modal dialog box titled "Credits Packages" with the sub-instruction "Use this section to configure credits packages...". It contains a "Credit Package" section with three input fields:

- Name:
- Quantity:
- Price:

At the bottom are "Save" and "Cancel" buttons.

10 SEO Management

ASPnetDating helps you with the search engine optimization for your dating site. This tool provides the means needed for meta tags to be generated automatically depending on the users' profile.

10.1 Edit Meta Tags

ASPnetDating helps you with the search engine optimization for your dating site. This tool provides the means needed for meta tags to be generated automatically depending on the users' profile. Click on "Edit Meta Tags" from SEO Management section on the menu. A list of available meta tags is provided:

Available tags	
%%USERNAME%% - Username	
%%AGE%% - User gender	
%%GENDER%% - User gender	
%%COUNTRY%% - User country	
%%STATE%% - User state

11 Affiliate Management

This option allows you to manage the affiliates details, payment request, view affiliate payment history and commissions and uploads your banners that will be available for them to use.

11.1 Browse Affiliates

To browse available affiliates click on "**Browse Affiliates**" from Affiliate Management on the left menu. An extended filter is available for searching affiliates:

A screenshot of the "Affiliate Management" search interface. It features a "Filter" section with fields for Username, Name, Email, Site URL, Deleted status, Active status, and Request payment status. Below the filter is a "Search" button. To the right, there is a dropdown for "Affiliates per page" set to 20, and at the bottom, navigation links for [First], [Prev], No Results, [Next], and [Last].

12 Statistics

ASPnetDating software now provides statistics to monitor users' activity. Just select the time period to view the new registrations and the number of online users online at any given time.

12.1 New Users Stats

New Users Stats feature helps you to keep in track with the new registrations on your site.

A screenshot of the 'New Users Stats' page. The page has a sidebar on the left with various management links. The main content area is titled 'New Users Stats' and contains a 'Filter' section. The 'Filter' section includes input fields for 'From' (10/14/2008) and 'To' (11/13/2008), and a dropdown menu for 'Type' with options: Daily (selected), Hourly, Weekly, and Monthly. Below the filter section is a large blue placeholder area.

Use the filter to determine the time period you want the statistic for. And choose the type of the statistic from the "Type" dropdown:

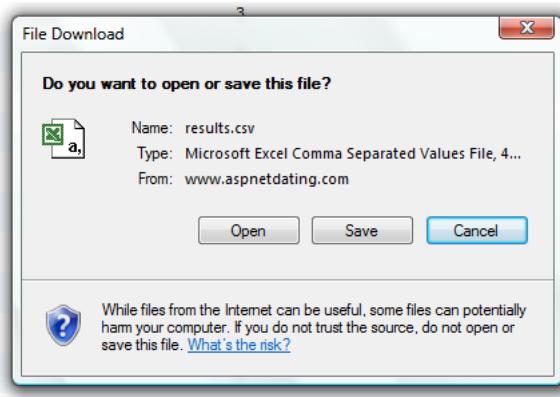

A screenshot of a dropdown menu for 'Type'. The menu items are 'Daily', 'Hourly', 'Weekly', and 'Monthly'. The 'Daily' option is highlighted with a blue background. Below the menu is a blue button labeled 'Statistics'.

Click on "Show Statistics (see page 82)" button to view the statistic.

Depending on the selected statistic type the chart and the table shows the new registrations for the time period you have entered.

You can also download the report table in csv format if you want to keep it in archive or view it in excel. Just select the "Download as CSV" button.

12.2 Online Users Stats

Online Users Stats feature allows you to view the number of online users online at any given time.

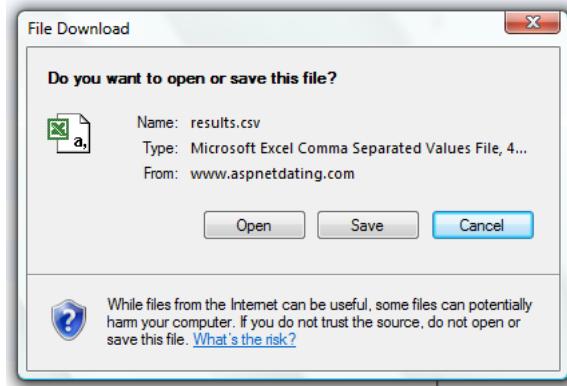

Use the filter to determine the time period you want the statistic for. And choose the type of the statistic from the "Type" dropdown:

Click on "Show Statistics" (see page 82) button to view the statistic.

Depending on the selected statistic type the chart and the table shows the number of online users for the time period you have entered.

You can also download the report table in csv format if you want to keep it in archive or view it in excel. Just select the "Download as CSV" button.

13 Extras

Our software now supports Vista Sideshow Gadget. It shows the pending photos and answers waiting for approval and number of new users.

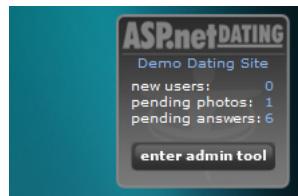

13.1 Sideshow Gadgets

Use this section to generate and download admin Vista Sideshow Gadget:

It shows the pending photos and answers waiting for approval and number of new users:
